## EDUCATION

• IMPRS MMFD, University of Tübingen • Integrated M.Sc/Ph.D Programme in Neural and Behavioural Sciences	Tübingen, Germany Oct. 2022 –
Ashoka University	Sonipat, India
• PG Diploma in Advanced Studies and Research in Computer Science; CGPA 3.44/4.0	Aug. 2021 – May 2022
Ashoka University	Sonipat, India
Bachelor of Science in Computer Science with a Minor in Biology; CGPA: 3.58/4.0	Aug. 2018 – May 2021
Tools and Frameworks	
• <b>Programming Languages:</b> Python, MATLAB, C, C++, R, Apps Script	
• Frameworks: PyTorch, TensorFlow for Machine Learning; C#/.NET for Windows app development of the tensor of tensor o	lopment.
• Other Tools: GitHub, Selenium, Excel/G-Sheets, LATEX, GIMP, CORTEX.	
Research Experience	
• Waveform feature clustering, Hafed Lab, Center for Integrative Neuroscience • Research Intern, Supervised by Prof. Dr. Ziad Hafed	Tübingen, Germany Jul. 2024 -
• Applying various linear and non-linear clustering algorithms on spike waveforms from neurons in the macaque superior colliculus and primary visual cortex to characterize prevalent spike types	
• Decision making in crows, Nieder Lab, Inst. Neurobiology • Lab-rotation & Master Thesis Student, Supervised by Prof. Dr. Andreas Nieder	Tübingen, Germany Nov. 2023 -
• Employing random dot-motion discrimination to explore behavioral aspects of perceptual decision making in crows	
• Serotonin in patience, Dayan Lab, MPI-BC Lab-rotation Student, Supervised by Dr. Kevin Lloyd	Tübingen, Germany Sep. 2023 - Nov. 2023
• Evaluating an average reward RL model of how Serotonin may be modulating patience in interval timing tasks	
• Pulse protocols for DPOAEs, Gummer Lab, Tübingen Hearing Research Center Research Intern, Supervised by Dr. Ernst Dalhoff	Tübingen, Germany Jun. 2023 - Jul. 2023
• Testing efficacy of novel two-pulse protocols for distortion product otoacoustic emissions as a diagnostic tool for cochlear amplifier functionality	
• Single Molecule Biophysics, Haldar Lab, Ashoka University Software Development Intern, Supervised by Dr. Debayan Gupta & Dr. Shubhasis Haldar	Sonipat, India Dec. 2019 - May 2022
• Building and improving covalent magnetic tweezers and associated software(s) for week-long single molecule force-clamp experiments.	
$\circ~$ Learnt protein extraction and purification methods over Summer, 2020.	
Neuroethology Lab, Ashoka University	Sonipat, India
Undergraduate Research Assistant to Dr. Bittu K Rajaraman	Sep. 2018 - May 2022
• Studying call pattern generation and production in <i>Orthopterans</i> using a mixture of simulations, electrophysiological and behavioral exploration, to develop circuit models.	
• Assisting senior graduate students in conducting and designing behavioral assays.	
• Experienced in field work and animal maintenance.	
• Created a spike-sorting pipeline using SpikeInterface for two-channel neural data	

from electrophysiological explorations on bushcrickets.

### TEACHING

## Graduate Teaching Assistant

University of Tübingen

- **Neurobiology Practical (Winter 2023)**, Dr. Stephanie Westendorff; Class size: 25; Tasks: Assisting 3rd year students of B.Sc Neurobiology conduct electrophysiological exploration of ground cricket auditory responses.
- Sensory Systems I: The Auditory and Vestibular Systems (Winter 2023), Class Size: 30; Tasks: holding bi-weekly tutorials for masters students of the Graduate Training Center for Neuroscience.

### Undergraduate Teaching Assistant

Dept. of Computer Science, Ashoka University

- **Theory of Computation (Spring 2022)**, Dr. Soumyottam Chatterjee; Class size: 25; Student Feedback : 4.5/5; Tasks: holding weekly office hours, setting and grading all assignments.
- Introduction to Machine Learning (Monsoon 2021), Dr. Subhashish Banerjee; Class size: 68; Student Feedback: 4.43/5; Tasks: holding weekly office hours, setting and grading all assignments, facilitating data collection for Ashoka's Faces Dataset.
- Algorithms Design and Analysis (Spring 2020), Dr. Subhash Bhalla; Class Size: 70; Student Feedback: 4.46/5; Tasks: holding weekly office hours, setting and grading all assignments.

#### **Teaching Assistant**

Summer School, Neuromatch Academy (Online)

• **Deep Learning Course (Summer 2021)**, Content by various professors from around the globe; Led 7-14 international UGs and Ph.Ds selected to participate in the *Interactive Track* of the programme; Led daily discussion sessions, taught deep learning tools from ground up on PyTorch, provided project support.

#### OTHER WORK EXPERIENCE

Alumni Relations Office, Ashoka University Website f <sup>3</sup> Database Administrator	Sonipat, India Mar 2021 – Jan 2022
<ul> <li>Manager of alumni databases and the alumni web portal, with 1500+ active users.</li> <li>Supervised interns over summer 2021 to clean data and expand existing database by scraping 980+ LinkedIn profiles to collect and organize data on all existing alumni in comprehensive database in the history of the university.</li> </ul>	nto the largest, most
<ul> <li>The Neuroscience Outreach Network</li> <li>Community Outreach &amp; Content Coordinator</li> <li>Project aimed at enabling access to education in neuroscience to students in underserved communities around the world.</li> </ul>	Princeton, NJ, USA Aug. 2020 – Jan. 2021
<ul> <li>Tailored virtual/classroom lessons and material for individual grade levels.</li> <li>DiverseNeuro.org Student Researcher</li> <li>A collaborative research venture between IISER Pune and Ashoka University</li> </ul>	Multiple locations, India Jun. 2020
• Study on the international academic demographic in neuroscience, aimed at informing inclusive policy-making in academia.	

#### PROJECTS

- Modeling Forest Fires (Winter 2022): Replicated findings in Malamud et.al, 1998 using a 2-D cellular automaton model of forest fire dynamics
- Capstone Project Incorporation of Deep Probabilistic Models into Data Compression (Monsoon 2021): Project under the supervision of Dr. Mahavir Jhawar and Dr. Subhashish Banerjee, on methods to incorporate deep latent variable models into source coding for image and video data compression; special focus on Asymmetrical Numeral Systems; implemented the t-ANS codec from scratch in Python.

- Classifier Rules for the Majority Problem (Spring 2021): Simulated all elementary automata, studied its statistical mechanics and applications in solving the majority problem (a density classification task), both theoretically and as a proposed model to explain the less understood phenomenon of stomatal patchiness.
- Efficient Face-Mask Detection for Syndromic Surveillance (Monsoon 2020): Built an efficient face-mask detection tool suitable for cheap computation such as on mobile phones, webcams or CCTV cameras, so as to allow for real-time feedback into disease dynamics models.
- Prediction of Erroneous Decision Making (Summer 2020): Decoded neural data from Steinmetz, et. al, 2019, to predict erroneous decision making in trained mice. Used a GLM to predict whether the performance of trained mice that performed well in an 2-AUC experimental paradigm was affected by previous erroneous decisions. Project mentor: Dr. Adrien Peyrache, McGill University.
- Modelling Call Pattern Generation in Bushcrickets (Spring 2019): Exploratory project on call pattern generation in crickets and mechanistic models of neurons, particularly the Morris-Lecar 2-neuron model.

#### Awards and Scholarships

- Best Student Presentation, Lab Rotation Seminar, GTC of Neuroscience, University of Tübingen
- Fully funded M.Sc in Neural and Behavioural Sciences, MPI for Biological Cybernetics
- 100% Scholarship on Tuition and Residence, Ashoka University

#### LEADERSHIP AND EXTRA-CURRICULARS

•	Student Representative, IMPRS MMFD University of Tuebingen	Mar. 2023 – Mar. 2024
•	<ul> <li>Mentor, Ashoka University Women in STEM</li> <li>Independent, Alumni-run</li> <li>Mentoring women and non-binary folk interested in pursuing research careers in STEM.</li> </ul>	Oct. 2022 –
•	<ul> <li>Advisor, Women in Computing Society</li> <li>Ashoka University <ul> <li>Head, WiCS Workshop Weekends; Member since 2018.</li> <li>Led 2 WiCS Annual Cryptic Hunts, our flagship event.</li> </ul> </li> </ul>	Sep. 2021 – Jan. 2022
•	<ul> <li>Student Representative, Dept. of Computer Science</li> <li>Academic Advisory Board, Ashoka University</li> <li>Selected by the Head of Department, Dept. of Computer Science.</li> </ul>	Sep. 2020 – May 2021

• Served as primary coordinator for all student–department communication.
